Car Events

For your safety

For the environment

For your economy

For fun

Our operational environment can be highly versatile with everything from international field training to government organisations emergency response training.

Car Events business concept is to help companies that use cars in their business, to optimize their driving behavior. Through training and education, we create long term improvement in security, cost effectiveness and environment effects.

For over forty years we have educated various kinds of drivers, from civilians to professional rally and racing drivers. Our focus is the combination between the individual driver and the capacity of the vehicle.

Car Events - The ultimate car experience

Together we create the framework for your vehicle training programs. Our training and courses are always tailored in close cooperation with our customers. We manage everything from 1 to 800 people per day, depending on the character of the project. We teach the driver to view his or her role as a driver with new eyes.

Our education programs and training events include:

- 1. Volkswagen Blue Driving & Safety**
 - ECO-driving
- 2. Security and Emergency Driving Education and Training Programs**
